

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

the manner prescribed by the general school law for the election of school officers, two commissioners, one for two years, and one for three years, the ballot designating the term of service of each member, and every year thereafter one commissioner, whose term of office shall commence within thirty days after his election, and continue three years, and until his successor is elected and qualified; who together with the present commissioners shall constitute a board of education to be denominated, "The Board of Education of the Independent School District of Ceredo."

3. Before entering upon their duties as school officers, each of said commissioners shall be required to qualify by taking and subscribing to the following oath of office: "I, A——B——, do solemnly swear (or affirm), that I will faithfully perform the duties of commissioner of the board of education of the independent school district of Ceredo, during the term for which I was elected, to the best of my ability, according to law, so help me God." The secretary of the board of education is authorized to administer said oath, a copy of which shall be kept by him upon the files of his office. Any vacancy that may occur in the office of school commissioner by death, resignation, refusal to serve, or otherwise, shall be filled by the board of education of the district at their first regular meeting thereafter, by the appointment of a suitable person, who shall hold his office until the next election of school commissioners, when a commissioner shall be elected for the unexpired term. The secretary shall have a vote, in case of a tie vote.

4. The board shall meet annually within thirty days after the third Saturday in March, at such time and place as the board may have designated, and shall elect one of their number president, and shall also elect a secretary. Before entering upon the duties of his office, the secretary shall, with at least two good securities, to be approved by the board of education, enter into a bond, payable to the board of education of independent school district of Ceredo, in such penal sum as the board may determine, which bond shall be filed with the president of the board, for safe keeping.

5. The president shall perform such duties as usually devolve upon the presiding officer of a deliberative body, except that he shall have a vote upon each and

every question as any other commissioner, but he shall have but one vote upon any one question. In his absence the board may choose a president *pro tempore* from among their number.

6. The secretary shall record, in a book provided for the purpose, all the official acts and the proceedings of the board, which shall be a public record, open to the inspection of all persons interested therein. He shall preserve in his office all papers containing evidence of title, contracts and obligations; and in general, shall record and keep on file in his office all such papers and documents as may be required by any of the provisions of this Act, or by any order of the board of education. He shall annually, between the first and twentieth of July, make report to the county superintendent of such facts in his possession as may be required by general school law of the State. For his services he may receive such compensation, not exceeding one hundred dollars per annum, as the board may allow. In his absence the board may appoint a secretary *pro tempore*.

7. The board of education shall hold stated meetings at such times and places as they may appoint, not less than two members being required to constitute a quorum for the transaction of business. Special meetings may be called by the president, or at the request of any member, by the secretary. The concurrence of two members of the board shall be required to elect superintendent or teachers, and to decide all questions involving the expenditure of money.

8. The board of education of the independent school district of Ceredo shall be a body corporate in law; and as such may purchase, hold, sell or convey real or personal property for the purpose of education within the district; may receive any gift, grant, donation, or devise, may become party to suits and contracts and do other corporate acts. They shall have the management and be vested with the title to all real and personal property for the use of the public schools within the district, and shall manage and dispose of the same as will in their opinion best subserve the interests of the district.

11. It shall be the duty of the board of education to provide by purchase, condemnation, leasing, building or otherwise, school houses and grounds, furniture, fixtures and appendages, and keep the same in good order and repair; and to supply the said school houses with fuel and other things necessary for their comfort and convenience; to pay the principal and interest on loans made pursuant to this section; and all other expenses incurred in the district in connection with the schools not chargeable to the teachers fund. For the purposes mentioned in this section, the board of education shall annually levy a tax on the property taxable in said district not to exceed in any one year forty cents on every hundred dollars valuation thereof, according to the latest assessment of the same for state and county taxation. The proceeds of the taxes so levied, of school houses and sites sold, of all donations, devises and bequests, applicable to the purposes mentioned in this section, and of any loans that may be made for such purposes, shall constitute a special fund to be called "the building fund," to be appropriated expressly for the purposes named in this section. And the board of education, in addition to the levy aforesaid, may borrow money for the purposes mentioned in this section, on the credit of the building fund: *provided*, that such loans shall at no time amount to more than can be paid by a levy at the rate of twenty-five cents per hundred dollars per year, for four successive years, on the assessed valuation of taxable property of the district; *provided, further*, that no debt shall be contracted un-

der this section, unless all questions connected with the same shall have first been submitted to a vote of the people of the district, and have received three-fifths of all the votes cast for and against the same. Such election shall be held and conducted in the same manner as hereinbefore prescribed for the election of school commissioners; of which election at least thirty day's notice shall be given of the proposed loan and issue of certificates of debt or bonds, by publication in one newspaper published in the district.

The proceeds of this levy, together with the money received from the state as aforesaid, shall constitute a special fund, to be called the "teachers fund," and no part thereof shall be used for any other purpose than the payment of teachers' salaries, and the salary of the city superintendent. In addition to the preceding levies the board may annually levy a tax, not to exceed two-tenths of a mill on the dollar valuation, for the establishment, support and maintenance, and increase of a public library, said library to be under the control of the board of education. Be it enacted by the Legislature of West Virginia:

1. That the lease and agreement respecting the property of the state committed to the management and control of the trustees of Berkeley Springs by an act of the Legislature of the State of West Virginia, being chapter two hundred and two of one thousand eight hundred and eighty-two, made and entered into by said trustees of Berkeley Springs, with Dr. Charles W. Chancellor, of Baltimore, Maryland, on the twentieth day of October, one thousand eight hundred and ninety-seven, which lease, with certain amendments, is in the words and figures following, to-wit: An indenture made this twentieth day of October, one thousand eight hundred and ninety-seven between the trustees of Berkeley Springs, a corporation created under and by virtue of an act of the state of West Virginia, party of the first part, and Charles W. Chancellor, his executors, administrators and his assigns, of the city of Baltimore and state of Maryland, party of the second part;

Reciting transfer of former lease.

WHEREAS, The said Charles W. Chancellor, assignee of the said John E. Herrell, having, at a meeting of the trustees of Berkeley Springs, duly held for the purpose of taking the premises into consideration, represented to the said trustees that, after careful consideration and consultation with capitalists and others skilled in such matters, it has been found impracticable to perform all the provisions and conditions of the said lease in the time and manner therein set forth; and the said trustees of Berkeley Springs being "authorized and empowered to make a new agreement similar in all respects to the one set forth in the said lease, with any person or persons who will undertake to perform the same," and the said trus-

And the said party of the second part further covenants for himself, his executors, administrators and assigns that he will, on the first day of October, after this lease shall go into operation, and on the first day of October of each suc-

The said bond and oath shall be filed in the office of the clerk of the county court, and the bond shall be duly recorded by said clerk, who shall certify a copy thereof within ten days thereafter to the auditor, and also furnish the auditor the post office address of the commissioners. If the said commissioners so appointed fail to qualify and give bond as herein required, within the time prescribed, or in case he shall die or resign, before making or completing his valuation, or the office otherwise become vacant, a successor shall be immediately appointed, as hereinbefore provided, who shall at once give bond and qualify as herein prescribed, and enter upon the discharge of the duties of the office.

SEC. 4. Each commissioner so appointed and qualified, shall, on the first day of April, one thousand eight hundred and ninety-nine, or as soon thereafter as practicable after receiving the books and instructions to be furnished by the auditor, and which shall be sent to the clerk of the county court of each county, and be by him delivered to the commissioners, proceed to examine, in person, all the tracts of land and town lots, with buildings and improvements, if any thereon, within his district, and shall upon examination and in accordance with his instructions, and the provisions of this act, ascertain and assess the fair cash value thereof, and in such assessment the minerals, mineral waters, oils and gases underlying the surface, and the location of the land, shall be considered in ascertaining the value of such land, in current money; and when mineral, mineral water, oil, gas or coal privileges or interests, are held by a party or parties, or any company or association, exclusive of the surface, the same shall be assessed separately, to such party or parties, company or association, at its cash

And when the timber, or any part of it, is held by any person, company, firm or corporation, on any tract of land, and the land is owned by another person, firm or corporation, and such fact shall appear in any way upon record in the office of the clerk of the county court, wherein the said land is, said timber shall be assessed separately to the owner thereof, at its fair cash or market value, at the time the same is made. And the said commissioner shall have the same power to examine the owner of such timber and other witnesses as to the value thereof, as is herein provided for in relation to the assessment of minerals; and in case the owner of such timber has failed to record his evidence of title thereto, the owner of such tract of land may make and file an affidavit showing him to be the owner of such timber, in the office of the clerk of the county court of the county wherein such timber may be situated; and the clerk of said court shall record the same in his office, and such affidavit, when so recorded, shall be sufficient evidence to authorize the said commissioner to assess said timber against said owner. In ascertaining and fixing the value of any land within the limits of any city, town or village or elsewhere, which has been laid off into lots and opened up as lots by the construction and maintenance of roads and streets through the same, the said commissioner shall adopt as the value of such land, the value thereof as so laid off into such lots, valuing the same by the lot and not by the acre or tract.

And to further assist him, the commissioner may require the owner of the land to produce the lease, deed or title bond, or other evidences of title, for examination; and he shall obtain from the clerk of the county court, a copy of the land books of the district he is to assess, made for the year one thousand eight hundred and ninety-eight, and when completed, for the year one thousand eight hundred and ninety-nine, and carry it with him for reference in making this assessment.

SEC. 5. In all cases, where it is practicable, the commissioner shall exhibit the entry of any lands, city or town lots, found on said books, to the owner of said lands or lots, or his agent, and ascertain from him if the said entry be correct, as to the location, title and quantity, as well as the value of any buildings or the addition to any buildings, which may have been placed thereon since the last assessment, and which have not been assessed, and may require such owner or agent to answer on oath, questions relative to such lands or lots, and the entry thereof, as may be pertinent for this purpose, as well as to ascertain the true value of all real estate. The commissioner shall be authorized to administer said oath. Any person refusing to be sworn, or to answer under oath, questions that may be propounded to him in reference to said assessment, or ratification of lands or real estate, shall be guilty of a misdemeanor, and upon conviction thereof, be fined not less than twenty dollars, nor more than one hundred dollars for every such refusal, to be recovered before the circuit or criminal court as other fines, and paid into the state treasury; and it is made the duty of the commissioner to report such refusal to the prosecuting attorney of the county.

The other book shall be transmitted to the auditor on or before the first day of April, one thousand nine hundred. In any county in which there are two assessment districts, the county court of such county shall examine said books and see if there is inequality in said assessments as between the districts, and make such order as will correct any inequality that may exist.
Correction of assessment.	<p>SEC. 7. Any person feeling himself aggrieved by the assessment of his real estate or other property, as herein provided for, made under the provisions of this act, may, within one year after the filing of a copy of such assessment with the clerk of the county court, apply, by himself or his agent, to the said court for redress, first giving reasonable notice in writing of his intentions to the prosecuting attorney, and stating in said notice the character of the correction he desires. It shall be the duty of the prosecuting attorney, upon being notified, to attend to the interest of the state at the trial of such application. If upon hearing the evidence offered, the county court shall be of opinion that there is error in the assessment complained of, or that the valuation fixed by the commissioner is too high or too low, the court shall make such order correcting the assessment as is just and proper. The right of appeal, from any such order made by the county court, shall lie to the circuit court, and may be taken either by the applicant or the state; and in case the applicant, or the state by its prosecuting attorney or agent, desires to take an appeal from such order, the party desiring to take such appeal shall have the evidence taken at the hearing of such application certified by the county court, and such appeal when allowed, by the court or judge in vacation, shall have precedence over all other cases pending in said court. A copy of any order or orders entered in any court, making any such correction, as is herein provided for, shall be made and certified to the auditor by the clerk within twenty days after the entering of the same; but any order or judgment made upon such application shall show that the prosecuting attorney was present and defending the interest of the state; and in the event that it shall be ascertained that the land has been assessed too high, and the owner has</p>

[Adopted February 13, 1899.]

Providing for the publication of a fourth edition of the Code of West Virginia:

Resolved by the Legislature of West Virginia:

1. That the Governor be and he is hereby authorized and directed to contract for the purchase of five thousand copies of a fourth edition of the code of West Virginia, to be compiled by John A. Warth, at the price of three dollars per copy, making, in the aggregate, the sum of fifteen thousand dollars, which sum shall be in full of all costs and expenses attending the compilation, publication and delivery of the books; which delivery shall be made as soon as practicable after the adjournment of the present session of the legislature.

2. Such fourth edition of the code shall be printed in one volume, on the plan and after the style of the third edition of said code, published in the year one thousand eight hundred and ninety-one, and substantially bound in law calf and not inferior in material and workmanship to the current volumes of the supreme court reports of the United States, and shall contain all the statute laws of the state of a general nature in force, including those passed at the present session of the legislature; also, the declaration of independence, the constitution of the United States, the constitution of this state, the laws of the United States concerning naturalization, and the election of United States senators, with references by marginal notes to prior laws and applicable decisions as now found in said code, including such applicable decisions of the Supreme Court of this State as may have been made since the publication of the last edition, with a table of contents and a complete index to the whole.

3. When such fourth edition shall have been compiled, and is ready to be printed, the same shall be submitted to the governor and attorney general for examination, and if found by them to conform to the requirements of this resolution, they shall so certify; and when the required number of copies shall have been printed, bound and delivered to the secretary of state and the same finally approved by the governor and attorney general, it shall then be the duty of the governor to cause the same to be paid for out of an appropriation to be made for that purpose. Said code shall thereafter be recognized as the fourth edition of the code of West Virginia and shall have the

same force and effect as the laws and acts from which the same are compiled.

4. The secretary of state shall make one distribution of such fourth edition of the code, as the acts of the legislature are distributed, except that members of this legislature and all officers to whom said acts are now distributable by law, shall receive but one copy each. The remaining copies of the code may be sold by the secretary of state for cash, at the price of four dollars per copy, and the proceeds of such sales shall be accounted for by him in the same manner he now accounts for the proceeds of session acts sold by him pursuant to law.

## JOINT RESOLUTION NO. 18.

(Adopted February 16, 1899.)

Authorizing the reporter of the supreme court of appeals to contract for the reprinting of the West Virginia reports.

Be it resolved by the Legislature of West Virginia:

SECTION. 1. That the reporter of the supreme court of appeals shall contract for, and have reprinted certain volumes of the West Virginia reports which are out of print, or which in his judgment should be reprinted.

SEC. 2. The reporter shall advertise for thirty consecutive days in four daily newspapers of general circulation within this state, two of which shall be Republican and two Democratic, and one paper in each of the following cities: New York, Philadelphia, Baltimore, Richmond, Cincinnati, Pittsburg and Chicago, that sealed proposals will be received at the office of the reporter, at the state house in the city of Charleston, up to and including the thirtieth day of said advertisement, at twelve o'clock noon, for furnishing paper, composition, press work, binding, boxes and packing, for six hundred or such additional copies of each of such volumes of the West Virginia reports as may be out of print, or which in his judgment it is necessary to have reprinted. Said sealed proposals shall be submitted upon blank specifications to be furnished by the reporter, and to be itemized for each separate classification of work.

SEC. 3. Each bidder shall be required to file a bond, in double the amount of his aggregate bid, with a guaranty company duly licensed to do business in this state as surety, or three cit-

izens of this state who are each worth in unincumbered real estate the full amount of the bond filed. Said bond shall be conditioned for the faithful performance of the contract, according to the terms and conditions of said proposals and specifications. Blank bonds to be furnished by the reporter. The reporter shall also specify in said advertisement that the right to reject any or all bids is reserved.

SEC. 4. At the hour of twelve o'clock, noon, of the thirtieth day of said advertisement, the reporter shall proceed to open in public all of the bids filed, and within ten days thereafter shall award to the lowest responsible bidder the contract for reprinting the said reports, rejecting any or all bids should it appear to him that none are satisfactory, and should this be found to be the case the reporter shall forthwith re-advertise, as provided in section two of this act, until a satisfactory bid is received.

SEC. 5. The proposals and specifications, to be prepared by the reporter, shall specify that the paper furnished shall be eastern standard book S. and S. C., sixty pounds dead white, price bid to be by the pound as well as an estimate for the whole job, amount actually used in the execution of the work to be stated under oath at the completion of the same.

All type to be new at the commencement of the work and of American standard face, as near like as possible to the several styles now in use in printing said reports; said type to be renewed whenever the reporter shall deem the same too much worn to be satisfactory. All press work to be calculated as two hundred and forty impressions of eight pages each to the token, and all forms to be dry-pressed. All type measurements shall be made by the standard point system, that no blank pages shall be counted or paid for, and the type predominating upon a page shall govern the measurement. Binding to be in the best quality of full law calf. Samples of paper and leather to be submitted to the reporter with each proposal and these to be the standard for the work.

The reporter shall be the sole judge of the quality of work done, and may reject any volume or volumes of any edition, or all the volumes, should the contractor not have complied with the terms of the contract entered into with said reporter. The said reprints when delivered to the reporter shall be turned over to the secretary of state and by him placed on sale at a uniform price, not to exceed the sum of three dollars per volume. The reporter may, out of any money hereinafter appropriated, provide for payment for advertising for proposals, for printing blank proposals and bonds, proof reading and other expenses, not to exceed the sum of six hundred dollars in any one year; payments to be made upon the requisition of the reporter drawn upon the auditor.

SEC. 6. There is hereby appropriated out of any sums in the state treasury, otherwise unappropriated, the sum of twelve thousand dollars for the year ending September thirtieth, one thousand eight hundred and ninety-nine, said sum to be available for the payment for reprints contracted for during that year; and for the year ending September thirtieth, one thousand and nine hundred, there is appropriated a like amount of twelve thousand dollars for reprints to be contracted for in that year. No payments shall be made for any reports contracted for to a greater amount than the appropriation for the year in which the said contract is made. Payments for reprints shall be made upon a requisition made upon the auditor by the reporter of the court.
